EDUCATION

B.E. Information Technology
St. Francis Institute of Technolgy
2023-present

Higher Education
Ryan International School
2021-2023

Junior Education
Ryan International School
2009-2021

SKILLS

- Project Management
- Adaptability
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

LANGUAGES

- English
- Hindi
- Kannada

KARTHIK JANARDHAN

DOB: 30TH MARCH 2005

THE FOLLOWING ARE MY EXPERIENCES:

NSE(National Stock Exchange) - Internship

1st June 2026 - 1st July 2026

Application Developer - WEBTECH

- Designed and implemented an observability stack for monitoring LLM serving infrastructure, with real-time tracking of token consumption, model failures, request latency, and GPU utilization. Used Prometheus for metric scraping and alerts, Grafana for dashboards, DCGM Exporter for NVIDIA GPU telemetry, and LiteLLM + Langfuse for tracing and token-level visibility. Enabled faster failure investigation, better load correlation, and more informed capacity planning across model-serving workloads.
- The system helped identify failed models, monitor resource utilization, correlate incidents with GPU pressure, and improve capacity planning and reliability of model-serving workloads

Google Developer Groups on Campus

January 2026 - Present

Marketing - Joint Head

- Led marketing and outreach initiatives by securing sponsors and collaboration partnerships for technical events and student activities. Played a key role in organizing HackX 2.0, a national-level hackathon conducted in collaboration with the CSI team, managing event promotions, partner coordination, and community engagement.

OpenAI x NextWave - Hackathon

15th September 2025 - 11th January 2026

Runner-Up

- Achieved Runner-Up position at the OpenAI × NextWave Hackathon, selected for the finale round among 1,700+ competing teams.
- Recognized for innovative problem-solving, technical implementation, and effective team collaboration under competitive constraints.
- Demonstrated the ability to design and present a scalable solution aligned with real-world use cases.

Google Cloud - Internship

15th November 2025 - 5th January 2026

Intern

- Completed a Virtual Internship on Google Cloud Generative AI conducted by SmartBridge in collaboration with AICTE (Nov 2025 - Jan 2026).
- Gained hands-on experience in Generative AI concepts, real-world use cases, and practical implementation on Google Cloud.
- Built a strong foundation in applying AI-driven solutions through guided learning and practical exercises.

Google Cloud - Gen Ai

January - June 2025

Leading the team

- Successfully completed Google Cloud GenAI Academy, gaining hands-on experience with Generative AI tools and workflows.
- Acquired practical skills in Vertex AI, Gemini APIs, Imagen, Streamlit, and Multimodal RAG through industry-aligned coursework.
- Recognized as a Top 50 Learner (June) among 250,000+ participants and ranked in the Top 1 performers, earning 800 points.

Colloquium

March 2024

Winner and leader

- Won First Prize at Colloquium'25 Inter-College IT Hackathon themed "IT for Good Governance" for the project Itihaas.
- Co-developed a heritage tourism platform enabling guided tours, interactive maps, rewards, and curated merchandise for enhanced user engagement.
- Contributed to solution design focused on digital governance, cultural preservation, and tourism technology through collaborative teamwork.

SOFTWARE PROJECTS

TECHNICAL AND SOFT SKILLS

CERTIFICATES

LINKS

REFERENCE

GET AnalyticX - Internship

30th June - 30th July 2025

Intern

- Completed Mastery Level Skill Training Internship at GET AnalyticX, gaining hands-on experience in AI tools, Python, and Django-based application development.
- Worked with GitHub, web scraping, and chatbot development, strengthening practical software and automation skills.
- Designed and delivered a live Power BI project (IPL Dashboard), applying data visualization techniques to derive actionable insights.

1.NSE_Observability

June - July 2026

- Designed an observability stack for LLM serving using Prometheus, Grafana, DCGM Exporter, LiteLLM, and Langfuse to monitor latency, token usage, GPU utilization, and model failures, improving troubleshooting and capacity planning.

2. VendorConnect - Local Street Food System (Python, OpenAI, Android)

September 2025 - January 2026

- VendorConnect is a comprehensive digital platform designed to solve the raw material sourcing problems faced by street food vendors across India. The platform connects vendors with verified suppliers, offers group ordering for bulk discounts, provides real-time price alerts.

3. Skillora (Python, Django, MongoDB)

July - December 2025

- A centralized platform offering courses, resources, and job information to support career growth.

4. CodeMinds - Fire Detection & Crowd Management (Python, OpenCV)

July - August 2025

- Developed during the Google Hackathon; features fire detection, crowd monitoring, and alert generation.

5. Itihaas (Python- Flask, HTML,CSS , SQLite)

January - April 2025

- Itihaas is a comprehensive Indian heritage tourism platform that connects travelers with India's rich cultural heritage, monuments, and historical sites.

- **Languages :** C, C++, Python, Java, JavaScript, TypeScript
- **Web Technologies :** HTML, CSS, JavaScript (ES6+), React.js, Node.js, Express.js, RESTful APIs, JSON
- **Databases :** MySQL, MongoDB, SQLite
- **Tools :** MS Office, VS Code, Git, GitHub, Linux (Ubuntu), Kali Linux, Docker
- **Soft Skills :** Communication, Leadership, Team Collaboration, Networking, Continuous Learning, Problem Solving, Presentation Skills

- Internship Completion Certificate - GET AnalyticX
- Certificate of Completion - Gen AI Program - Gen AI Academy (Forge)
- Virtual Internship Completion Certificate - Generative AI - SmartBridge
- Introduction to Technology Apprenticeship - Job Simulation - Accenture (Forage)
- Cybersecurity Analyst - Job Simulation - Accenture (Forage)
- ISRO Course - Government of India
- Introduction to Generative AI - IBM SkillsBuild
- Certificate of Appreciation - India's Biggest GenAI Global AI Event - NXT WAVE / OpenAI Academy
- Certificate of Acknowledgement - Bharatiya Antariksh Hackathon
- Google Developer Groups on Campus
- NoSQL & MongoDB Bootcamp - DevTown
- Microsoft Student Chapter (MSIT)
- Google Cloud Generative AI / AI Completion Certificate - Google Cloud
